The Ultimate Choice

HushMat™

COOL, QUIET, COMFORTABLE

Two AMAZING INSULATION OPTIONS GUARANTEED TO SURPASS YOUR EXPECTATIONS!

What Does HushMat Ultra Do?

- Reduces firewall, roof, floor thermal transfer by over 40%
- Reduces exterior noise from entering the cab and sleeper
- Makes my ride & sleep more quiet and comfortable
- So easy to install - Peel & Stick - You can do it yourself

What Does HushMat Silencer Megabond do?

- Absorbs noise from engine, road & tire, exhaust and noisy neighbors
- Adds additional layer of Insulation reducing thermal transfer 20%
- Flexible and easy to install
- Available without adhesive in 1/8" 1/4" and 1/2" thickness and with adhesive in 1/4" and 1/2" thickness

Ideal For:

Floor & Firewall

Headliner

Doors

Cab & Sleeper Walls

Bryan Martin of the Chrome Shop Mafia and 4-State Trucks located in Joplin, MO recently installed HushMat on "First Gear," First Class Service's 2005 Pete 379 and had this to say about the HushMat product. "Going with HushMat for your truck is a 'no brainer.' For virtually a few hours of labor and no special tools, you can greatly minimize the noise level and enhance the thermal protection. The addition of HushMat is 'leaps and bounds' better than the OEM insulation- You won't believe the difference!"

Clint Moore of Kansas City Peterbilt recently installed the HushMat product on Clay White's 2013 Pete 389 and had this to say about the HushMat product. "I Love my job... I have found, If you love your Job... you will never work a day in your life. I have been selling trucks and "Cool offices" since 1988, and have used HushMat on projects for over 8 years. Believe me when I say, it can help you, love your job!"
